- Illustrations published in Krames
- Logo Design: HellCats
- Promotional Items -Humane Society: Snapchat Filter & Videos
- Social Media Manager: Lexington HEMA

I have been working creative media-related jobs for five years now. In that time I have focused on producing and editing graphics and animations for print and web. I have a bachelors in Media Arts from the University of Kentucky. I currently work at the University in the nursing department where I create animations, videos, and graphic resource materials. I'm proficient at animation and illustration. Additionally, I have experience with filming and editing videos. My strongest skill is creative problem solving. If hired I will get the job done in a timely manner. My portfolio can be seen at www.shellyg14.com
